INNOFLOOR

InnoFloor looks and feels like natural timber without any of the natural timber’s challenges.

InnoFloor uses innovative technology that allows us to manufacture using recycled timber. InnoFloor can be used in both domestic and commercial applications.

FLEXIBILITY

InnoFloor system have the flexibility to be used in different layouts to acheive a distint look.

CAPABILITY

InnoFloor has been designed to be easy to install yet it still provides a clean finish with an embossed surface for added protection.

DESIGN INTENT

We can vary the design of InnoFloor systems based on your aesthetic preferences, performance requirements, installation cost requirements or any other design requirements you may have.

BENEFITS

InnoFloor systems can add a greatly enhanced natural look to the interior of your building.

STANDARD FLOORING

Our eco-friendly Standard flooring range looks and feels like solid timber flooring and delivers the same classic style, warmth and aesthetic appeal. However, unlike solid timber flooring, our Standard flooring range is water, mould, mildew, and bacteria resistant. It also has good acoustic absorbency and is free from splinters and toxins.
