INNOSCREEN

INNOSCREEN

InnoScreen systems offer an exciting, flexible and versatile alternative to conventional facade designs. With the look and feel of real timber, they add a warm, natural and stylish look to enhance the appearance of any conventional wall, soffit or ceiling treatment.

InnoScreen systems deliver multiple benefits over real timber. They are ideal for internal and external use in both commercial and residential settings and are easy to install, saving time and money.

INNOWOOD InnoScreen systems can also be used to create shade and optimise natural light while simultaneously providing privacy and security.

FLEXIBILITY

InnoScreen systems offer the flexibility to either provide consistent uniformly spaced battens or the ability to vary the profile and pitch of individual battens to create a unique result.

CAPABILITY

InnoScreen systems can be orientated vertically or horizontally to deliver a clean finish with consistently spaced batten.

DESIGN INTENT

InnoScreen systems can based on your aesthetic preferences, performance requirements, installation cost requirements or any other design requirements you may have.

BENEFITS

InnoScreen systems can greatly enhanced the look of your building’s façade by adding warmth and natural timber look

Wyndora Avenue, Freshwater – NSW, 2076

CONCEALED LOCK IN FIXING

InnoScreen’s Concealed Lock in Fixing System creates a perfectly clean line with battens that simply lock into place, concealing the single-part rear clip that can be set out to any desired spacing.

FACE & REAR FIXING SYSTEM

InnoScreen’s Face & Rear Fixing System is a direct fixing method whereby battens are either face fixed or rear fixed directly through the profile utilising a familiar timber installation technique. InnoScreen Face & Rear Fixing Systems are also finished on all faces for applications where the batten is visible on both sides of the installation.
